We have a clean sanitary shop Better, Stronger Citizenry Now Emerging Out of Work in United States.

> The American Bod Cross as an evangelist of better health has looked its problem square in the face. How it accepted the task revealed to it in the nation's physical condition as brought out during the World War, and conscientionaly applied its activities to correction forms a vivid chapter in the forthcoming annual report. Historically and practically, nursing is a basic work for the Red Cross. In its public health nursing service, in instruction in home hygiene and care of the sick, nutrition clauses, first aid and life saving courses and health centers, the American Red Cross is applying effectually the lessons learned during the war and making for a healthler, stronger and better nourtaked chizenry.

The task of the Red Cross Public-Health nurse in the 1,240 nursing services now operating throughout the country Instructing their communities in health essentials and disease prevention is demonstrating the possibilities of human betrerment and the great benefits of enlightenment.

During the last year 313 new public health nursing services were established by Red Cross Chapters, and several hundred services so convincingly preved their effectiveness that they were taken over by public authorities. In order to promote this work \$30,000 was allotted to provide women to prepare themselves for public nursing. The bome visits made by the 1,240 nurses aggregated nearly 1,500,000, visits to schools numbered 140,000, and in six months 1,250,000 school children were inspected by these nurses and where defects were found advised examination by physicians. In rural communities this service has made a very marked advance and has won thousands of converts to approved methods of disease prevention.

On June 30, 1922, nutrition service embraced 1.190 classes, with a total of 27,523 children and 2,589 enrolled dietltians. Seventy-eight food selection chases graduated 783 who received Red Cross certificates. In general health activities Red Cross Chapters maintained 377 health centers, serving as many communities, provided 38,751 health lectures for large nudlences everywhere, while clinics numbered over

Airship Crash Finds Aid at Hand The crash and descruction of the U. S. Army's large airship Roma in Virginia last February with the loss of 34 officers and men and 11 injured was the first disaster of its kind to call for Red Cross relief in this country. The suddonness of the accident tested the preparedness of the organization and of the Chapter at Hampton, Va., but the response was immediate and relief furnished the survivors, also funds for the expenses of relatives of the dead, who came from long distances to claim
